

Initial Project Planning Template

Date	04 July 2026
Team ID	xxxxxxx
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Use the below template to create a product backlog and sprint schedule

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members	Sprint Start Date	Sprint End Date (Planned)
Sprint-1	Data Processing & Analysis	USN-1	As a data analyst, I want to ingest, clean, and preprocess the credit card dataset so that missing values and duplicates are handled.	3	High		24 June 2026	28 June 2026
Sprint-1	Data Processing & Analysis	USN-2	As a data scientist, I want to perform exploratory data analysis and balance the dataset using SMOTE to handle heavily skewed approval classes.	3	High		24 June 2026	28 June 2026
Sprint-2	Model Development & Testing	USN-3	As an ML engineer, I want to train classification models (e.g., Random Forest, Logistic Regression) on the historical credit application data	4	High		29 June 2026	03 July 2026

Sprint-1	Model Development & Testing	USN-4	As an ML engineer, I want to evaluate model performance using Confusion Matrices, Precision, and Recall to select the safest model for approval prediction.	2	High		29 June 2026	03 July 2026
Sprint-1	Application Interface	USN-5	As a user, I want a web interface (Streamlit) where I can input financial metrics and instantly see if my credit card application is approved.	4	Medium		29 June 2026	03 July 2026
