

Project Demo Planning

Date	04 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, explain the objective, and discuss the need for an automated credit card approval system.	2 min	B.Jayasri
2	Solution Overview	Explain the system architecture, dataset, machine learning model (XGBoost), and preprocessing steps.	3 min	B.Jayasri
3	Live Application Demonstration	Demonstrate the Flask web application by entering applicant details and showing the prediction process.	4 min	B.Tejesh swamy reddy
4	Result Analysis	Explain the approval/rejection result, confidence score, and prediction history generated by the model.	2 min	B.Jayasri
5	Technical Features & Future Scope	Present the key features, scalability, security measures, and future enhancements of the project.	2 min	B.Tejesh swamy reddy
6	Conclusion & Q&A	Summarize the project and answer questions from the evaluation panel.	2 min	B.Tejesh swamy reddy

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Briefly explain the purpose of the Credit Card Approval Prediction System and the problem it solves.
2	Solution Overview	Present the project architecture, machine learning workflow, dataset, and technologies used.
3	Live Feature Demonstration	Show the application by entering applicant details, generating a prediction, and explaining the result with confidence.
4	Q&A Session	Answer questions related to the implementation, machine learning model, project features, limitations, and future scope.
